

Standings are not posted here at this time.

To see league standings, you need a team number from the division you are interested in. All team numbers appear in the captain's phone number list at the end of each schedule on www.smylie.net.

Once you have the team number, you can go to <http://national.usta.com> and click on "Public Reports". Enter the team number in the appropriate field and you will see the team standings.

If you log on to the site with a captain's USTA number, there will be another option, called "Administrative Reports." More informative reports are available there.
